

McNeely Defense Consulting LLC
UAV Integration • GNSS Protection • Field Operations

McNeely Defense Consulting LLC

McNeely Defense Consulting LLC

Southeast Texas, USA

dakota@mcneelydefense.com | mcneelydefense.com

Core Competencies

- **UAV Systems Integration** – full-stack platform design, wiring, and configuration for multirotor, fixed-wing, and hybrid UAVs.
- **GNSS Resilience Engineering** – anti-jamming system design, protected navigation integration, and spectrum testing.
- **Field Test & Validation** – end-to-end mission testing, log analysis, and flight-data reporting.
- **Operator Training** – tailored instruction for pilots, engineers, and program managers.
- **Technical Advisory** – architecture reviews, proposal support, and TRL advancement guidance.

McNeely Defense Consulting LLC
UAV Integration • GNSS Protection • Field Operations

Differentiators

- **Hands-on field expertise:** real-world experience integrating and flying UAVs across multiple environments.
- **Vendor-agnostic solutions:** open support for Pixhawk, Cube, ArduPilot, PX4, and all major GNSS receivers.
- **Defense-sector fluency:** deep understanding of DoD program structures, export controls, and integration workflows.
- **Rapid deployment:** on-site or remote support within days, not weeks.
- **Test-proven performance:** systems validated under live-jammed and GPS-denied conditions.

Company Information

Field	Detail
Legal Name	McNeely Defense Consulting LLC
Business Type	Limited Liability Company (LLC)
